# Company profile

## 2 year old company with over 5 years experience

### Company Timeline

- Privately held company
- Project started in 2012 as part of Cynny
- In Early 2016 decided to create a NewCo to develop the Cloud Storage Vertical
- 11 people of which 7 developers
- Headquarters in Florence, Italy

### Management & Board

#### **Andrea Marchi – CEO & Founder**

All rounded experience in marketing, decision making with 7 year Bain experience. Head of sales in Dada (domain & hosting), Cynny SpA board member and shareholder, founded Cynny Space in late 2015

#### **Stefano Baldi – CTO**

Extensive experience in IT and telecommunication sector working in Commprove and Arval (part of BNP Paribas) as Engineer and Account/Project Mgr. Since 2013 developed Cynny storage platform both at hardware and software level.

#### **Filippo Taccetti – Sale Director**

Skilled business developer with experience in lead generation. Head of business development for Treedom (marketing communication company). Joined Cynny Space in 2016 and implemented sales strategy.

#### **Stefano Bargagni – Board Member & ideator**

Serial entrepreneur, since in 1979 leading Italian IT companies, creating and leading industrial projects. In 1993, he founded CHL, the world's first e-commerce, went public on the Milan Stock Exchange in 2000 with revenues >€100mn.

#### **Giorgio Moretti – Board Member**

CEO and owner of 40% of Dedalus, European leader in healthcare software with 180M€ revenues. Key knowledge of IT business and strategic partnerships

#### **Simone Pratesi – Board Member**

Over 25 years of experience in B&C Speakers, publicly traded world leader in the production of electro-acoustic transducers, Investor Relator, CFO and Board member.

# Market overview

## Large, fast growing market

- Cloud storage is a **\$76bn market in 2021** with a 26% annual growth
- Top players fast growth and **stable storage pricing**
- EU regulation **strengthened starting may 18** to keep data within boundaries
- 80% of data is unstructured** (documents, backups, multimedia files, IOT data), Object Storage substituting traditional systems (NAS, SAN)
- No other **fully ARM® based storage** player

### Market Highlights

### Key IT challenges

**Data doubles every 2 years**

**IT Budget under pressure**

**Increasing data complexity**

**Worldwide cloud storage<sup>1</sup>**  
(\$bn)

**Cloud Infrastructure Market – Q2 2017**  
(IaaS, PaaS, Private & Hybrid Cloud)

Source: <http://www.marketsandmarkets.com/PressReleases/cloud-storage.asp>

<sup>1</sup>Primary Storage, Disaster Recovery & Backup Storage, Cloud Storage Gateway & Data Archiving, Public, Private & Hybrid

# Innovation

## First fully ARM® based storage solution

### The smallest microserver, the first<sup>1</sup> with ARM® technology

- Derived from **mobile phone** technology
- **Fully equipped server**, 100 times smaller
- Designed specifically for data management with **maximum efficiency** and **minimum size**
- **Low power consumption**, just 1,7W

### 1:1 ratio microserver to storage unit

- Unique setup, each Microserver is directly connected to a Storage unit resulting in **independent storage nodes**
- **High computing power per GB, 1 core per Hard Disk**
- Storage node directly connected with end user clients – no other layer required

### SwARM File System

*4 patents filed*

- The only **File System specifically developed** and optimized to run on **ARM®**
- **Intelligence distributed on each storage node**, no single point of failure
- **Seamless scalability**, just add nodes with highest level of data durability
- **No maintenance**

Secure and durable

Green Storage

Lowest Cost of Ownership

<sup>1</sup> <https://community.arm.com/groups/internet-of-things/blog/2014/05/14/cynny-arm-your-cloud> and [www.bloomberg.com/bw/articles/2014-09-17/cynny-builds-a-tiny-server-that-could-mean-big-trouble-for-intel](http://www.bloomberg.com/bw/articles/2014-09-17/cynny-builds-a-tiny-server-that-could-mean-big-trouble-for-intel)

# Value proposition

## Technology driven cost leadership and flexible on premise offer

### Public Cloud Solution

Object Storage pricing Comparison  
10 TB of space - €cent GB/month

#### Cost structure advantages:

Reduced cost of ARM servers

Lowest energy consumption

Zero Maintenance

All inclusive transparent pricing delivered from EU based datacenter

Headquarters

Current

Exp 2018

Exp 2019-2020

### Private Cloud Solution

#### On premise Hardware

- ✓ Pricing from 20 to 200k€ per installation and very low **entry level on the market**, from 32TB to 2PB net space
- ✓ **99,999999999%** durability even at the lowest size, much higher than current RAID storage
- ✓ **All included for 60 months:** support, maintenance, monitoring and updates

Space Module

Space Rack

From 32 TB

348-2090 TB

#### On premise Pay As You Go

Pay as You Go

| Net TB               | List Price TB / month |
|----------------------|-----------------------|
| Up to 20TB           | € 20,00               |
| From 20TB to 64TB    | € 18,00               |
| From 64TB to 128TB   | € 13,00               |
| From 128TB to 256TB  | € 11,50               |
| From 256TB to 1024TB | € 10,00               |
| More than 1024TB     | € 7,00                |

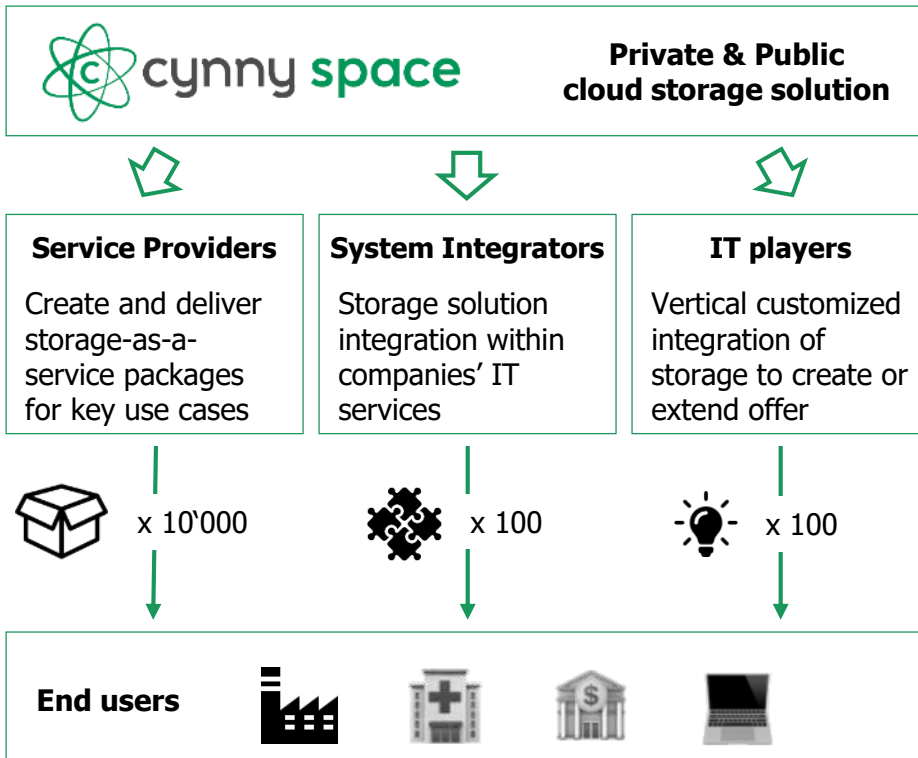

- ✓ **Real on premise pay-as-you-go**, customer pays only for real used space, no commitment to increase used space over time
- ✓ **Fully managed service**, growth managed by Cynny Space
- ✓ **Linear scalability** in terms of storage, with decreasing costs

# Go to market

## Solution validated by large player, expansion via B2B route

### Indirect Route to market

**B2B commercial approach to maximize size and speed of commercial approach and IT players with customized products for vertical solutions**

### Current Sales evolution

- Initial focus on Italian IT market: large number of leads activated, **multiple contracts signed and rolling out**
- Cynny Space **produced revenue** during market testing
- Aim to **strongly expand in Europe during 2018**. Commercial expansion in new geographies with focus on **Germany** (already activated) **UK** and **France**, testing multiple expansion models: external lead generation and direct local business development
- Opening **Public Cloud** locations in new geographies for testing and initial sales development
- Storage solution **validated by two multinationals** operating in defense and healthcare
- Strategic partnership** developed with key players:

# Go to market

## Vertical integration to create unique applications

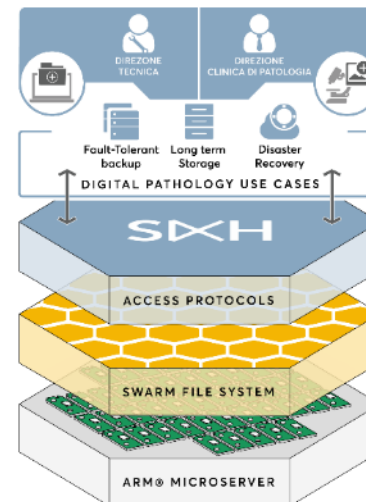

### Defense integration

- Customized **vertical integration** for a **defense industry leader**
- Client's Command & Control software combined with low energy consumption storage by Cynny Space to integrate multiple input and provide a united storage for all operations.
- End customer target: law enforcement, ports, airports, major events.
- ETA: June 2018

### Healthcare integration

- Developed and customized to integrate vertically a **leading medical records management system**
- Traditional server based medical record managements system utilizes the directly attached Cynny Space to store information such as digital pathology, x-ray, genome etc.
- End customer target: hospital, clinics, national health systems
- ETA: early 2018

# Objectives and Product Pipeline

## Become a key player and develop Storage focused innovation

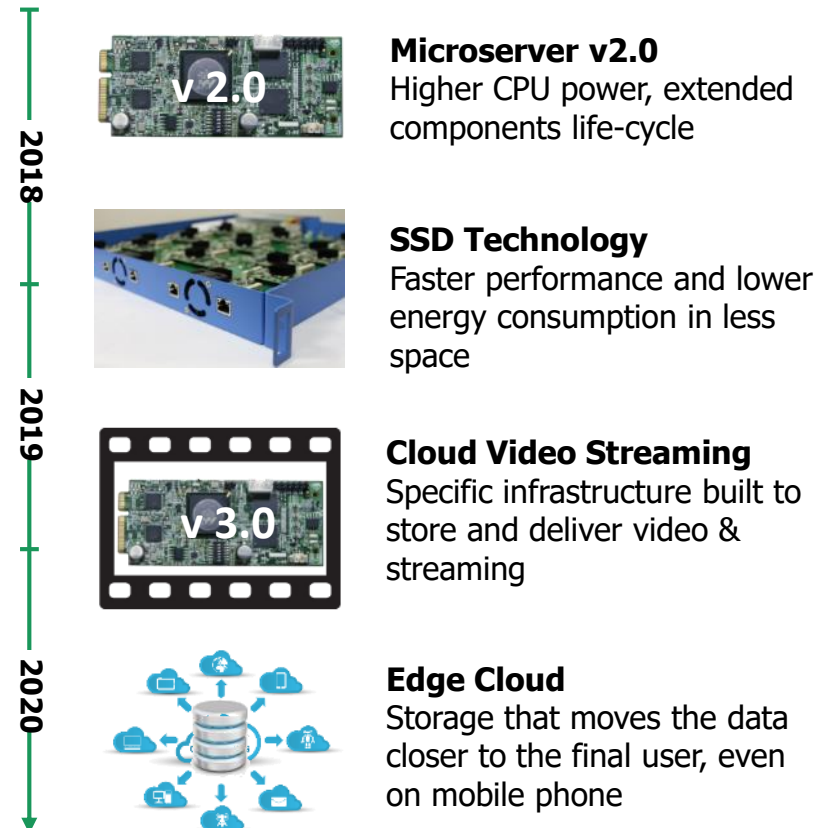

### Objectives

- 2021 Objective to **reach 3%** of EU cloud storage market share
- Aggressive **sales development** across key Western and Eastern European countries
- **Leverage private cloud** unique and flexible offering
- New product pipeline represents a potential upside, not included in objectives

### Product Pipeline

- Storage focused product development. We believe we are best at doing one thing

# Business Plan Full Potential Overview

## Growth across three sales models

### Highlights

- Sales of **€49M** in 2021
- EBIT **breakeven in 2020**
- EBIT target **>30%** of revenues
- Large part of cost structure **variable and linked to revenues growth** (infrastructure, customer care, sales,...)
- Private Pay-As-You-Go and Public offers create **backlog orders** that cover next year revenues and **yield high** margins
- **Low maintenance CAPEX** and **linked to business development**
- No fiscal optimization taken into consideration

<sup>1</sup> PAYG – Pay as you go on premise model

# Funding & Corporate structure

## Fuel revenue growth and expansion

### Company structure

#### Key Financial steps

**Dec 2015** - Raised € 0.5M from Cynny SpA and Marchi (CEO)

**Jul 2017** - Conferment of IP and Racks from Cynny SpA, €0,1M raised from Marchi

**Dec 2017** - Raised € 1M from Dedalus, Ardian backed Healthcare company after an extensive technical, fiscal and tax due diligence passed

### Funding

In 2018 structuring **a series A round** to accelerate growth and hit full potential objectives:

- Speed up business development in Italy and activate external networks to further strengthen strategic countries
- Develop storage focused product pipeline and maintain key competitive advantage
- Approach targets for integrated services, extra European countries and high potential partners

Key areas of investment proceeds:

- Commercial development **more than 50% of invested funds in the next years**
- Develop DE, UK and FR markets via third party technological providers

# Cloud Storage Opportunities and M&A activities

## Active and buoyant market for storage and cloud players

### Potential Upsides

#### Cloud players

Target directly large cloud players to build world wide commercial partnerships.

#### IT service providers

Develop integrated solutions with IT top players to drive efficiency and improve their standing

#### Moon Shot

Create a serverless solution that connects unused storage space in cellphones or computer making it part of a network and spreading storage across large number of devices

### Key M&A activities

- Storage system based on Solid State Disks (All-Flash Arrays)
- Fast revenues growth **FY13 \$6.07M, FY14 \$42.73M, FY 15 \$174.45** without generating profit (net result FY15: -\$180.48M)
- In October 2015 IPO on Nasdaq with **an evaluation of \$3,0B**

- Italian based company that delivers **cloud computing services** for enterprises, mostly under **private cloud** and **hybrid cloud models** di SAP più certificati al mondo.
- 2016 revenues of **€15.3M** with 13.5% CAGR 14-16 and 2016 **EBIT margin of 15.7%**
- In July 2017 IPO on AIM (part of MIBTEL) with **an evaluation of €150M**

- French based **storage software company** born in 2006 with 27 employees.
- Fees based on used space (not including the hardware) and **can run with ARM based servers.**
- In October 2017 raises **\$5M driven by venture capital funds** (Elia Partners, Partech Ventures, and Nord France Amorçage)<sup>1</sup>
