# Problem

**Time** is precious

**Local shops** are left behind

**No easy way** to instantly get what you need

# Solution

A platform that connects people with local shops, so that:

- People save time
- Local Shops add a service to their activity
- Offer a faster delivery service
- Creates a social community approach

# Market

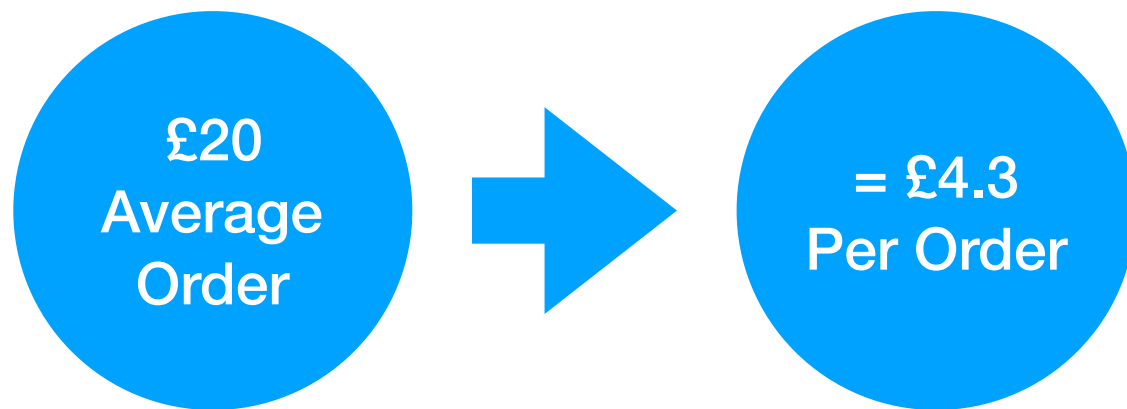

UK households spent the equivalent of £5,467 online in 2017. Bringing a market of more than £12 billion in London only.

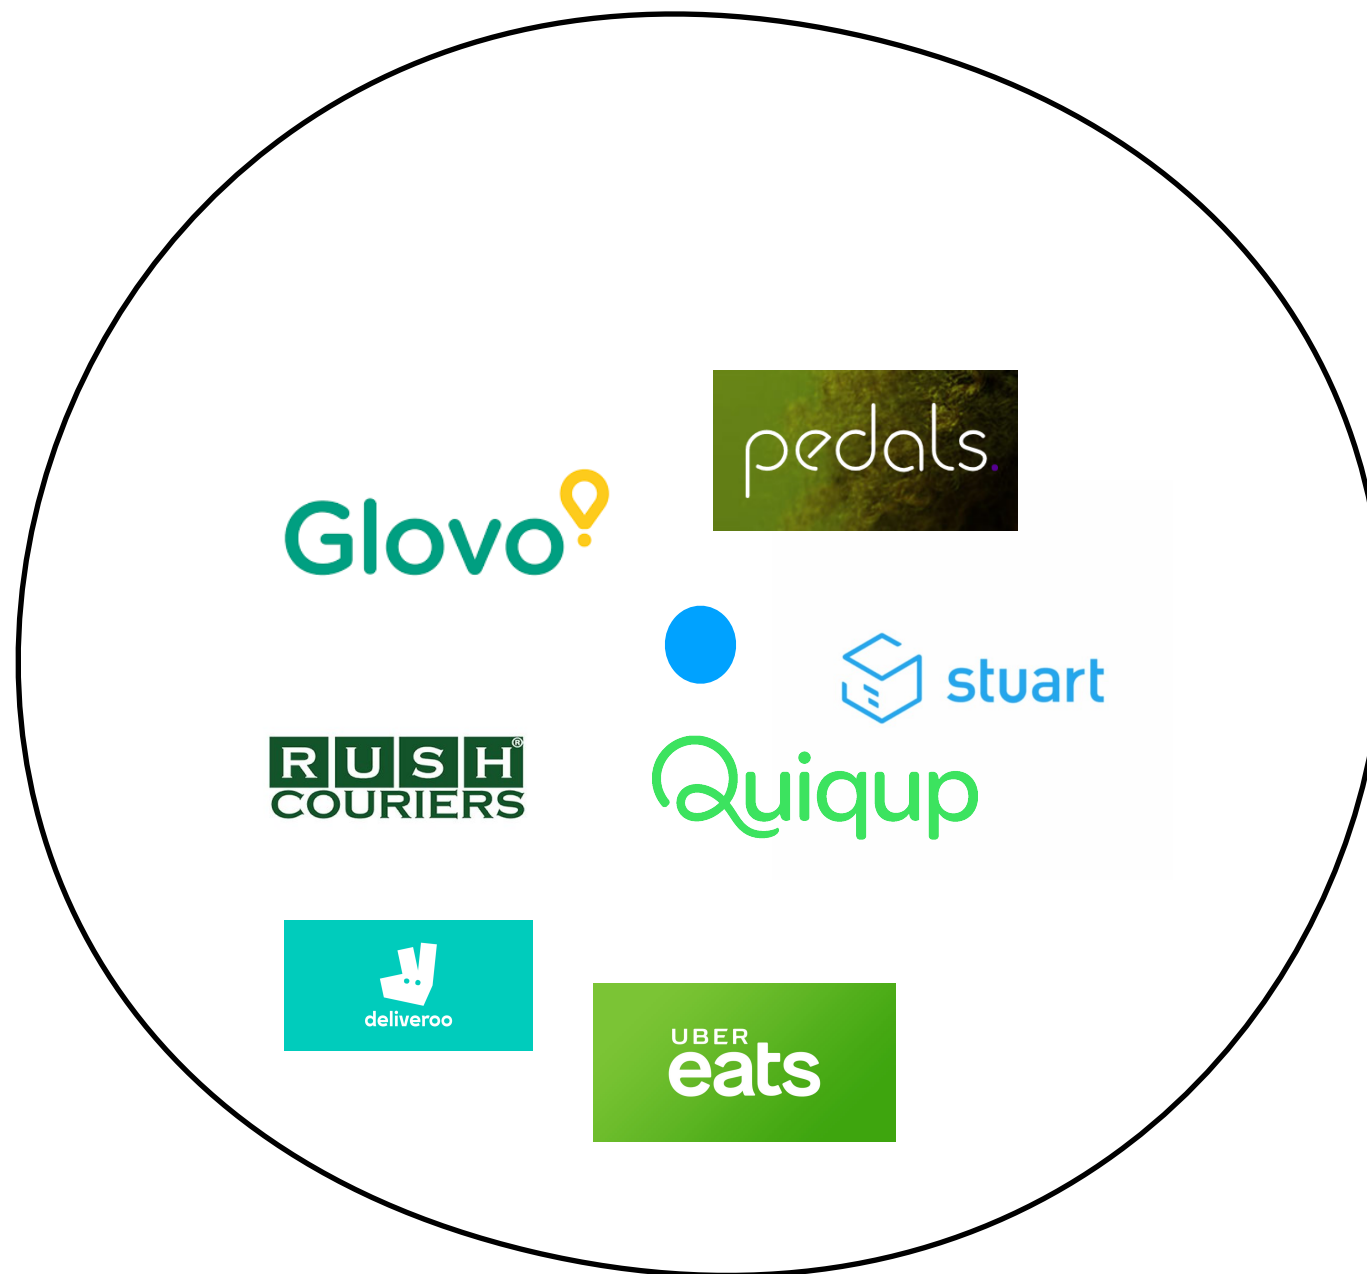

# Business Model

We take:

- A 9% commission on each order
- And a delivery fee from £2,5

# Competition
