**One accessible timetable system
for all the European Union
local public transportation operators**

&

**300,000,000
in-app ad views a day**

PITCH DECK by WEMOVED LTD.

WHAT WE HAVE IN THE EUROPEAN UNION:

- One flag and one currency

- One accessibility policy and one free movement rights

- One 1 BILLION local public transportation users a day

- But... NO ONE SYSTEM INTEGRATING ALL LOCAL PUBLIC TRANSPORTATION OPERATORS

- And... NO SIMPLE INFRASTRUCTURE FOR EASY CITY NAVIGATION FOR SELF-DRIVING CARS IN THE EU CITIES

WHAT WE CAN HAVE IN THE EUROPEAN UNION MARKET:

- **One professional timetable system for all local public transportation operators in all the EU cities instead of about 10,000 types of them (mostly not accessible for all at all)**

- **Low-cost city navigation infrastructure based on beacon features of OurEuroTimeTable system**

- **And... FIRST UNICORN STARTUP IN SMART CITY MARKET THANKS TO 300,000,000 IN-APP AD VIEWS PER DAY**

OurEuroTimeTable
STRATEGIC CHALLENGE

1. To integrate all the EU local public transportation operators with our one standard system.

2. To get 300,000,000 in-app ad views per day once our system has become standard for all the EU local public transport operators.

3. IPO and UNICORN status after 3rd year of operation.

Who are we?
OUR TEAM

We are professionals in visual communication in urban space. We carry out the European Union academic project "TICASS" regarding i.a. issues of the local public transportation.

Moreover, we are football fans who almost missed Barcelona v Eibar match in 2017 cos bus timetables in Barcelona are hardly usable when you can be in a hurry.
